

## Get Access to the Reputation Training Sandbox!

Your partnership experience with Reputation includes a partner login to use for demos and training. The training courses available within this private Training Sandbox environment include hands-on exercises that leverage data that is not available in your typical Reputation account.

### How do I log in?

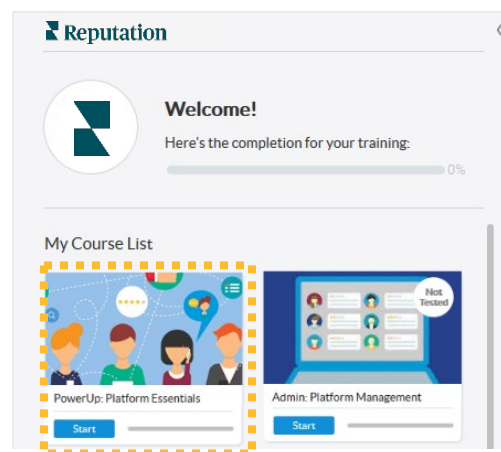

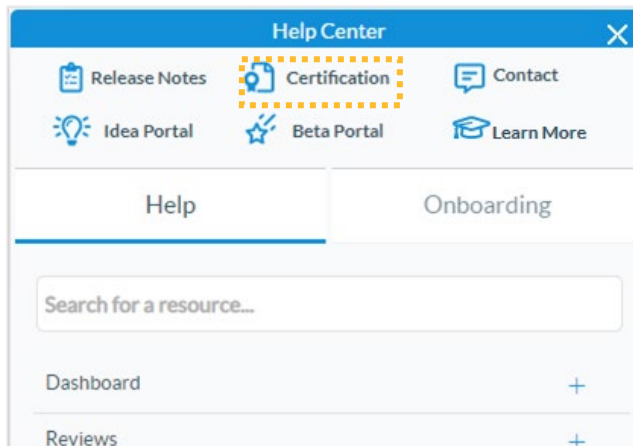

To avoid having to log in and out of different environments, we suggest that you open new private/incognito browser tab whenever you access the Training Sandbox:

1. Within your web browser (Chrome preferred), open a new private/incognito tab:
  - **Windows:** Press Ctrl + Shift + n.
  - **Mac:** Press ⌘ + Shift + n.

**Note.** This precaution also ensures that you don't accidentally make unintended changes to your production environment—we got your back!

2. Go to <https://app.reputation.com>, and log in with the credentials sent to you from [training@reputation.com](mailto:training@reputation.com).
3. After logging into the platform, click the prompt or the  in the upper right corner to open the Help Center.
4. Within the Help Center, click **Certification**, and click **Start** begin a course.

## What courses are available?

As a Reputation Partner, you get access to all our courses—for individual solutions as well as advanced tracks (PowerUp: Platform Essentials, Admin: Platform Management). View the Partner Training page for a complete list: <https://help.reputation.com/partners>

## How do the courses work?

Inside each course, watch short videos, read best practices, and interact with the platform features using onscreen walk-thrus.

The image shows a course completion interface on the left and a pop quiz overlay on the right. The course interface includes a 'Welcome!' message with a 20% completion bar, a list of course modules, and a 'Business Listings - Quiz' section. The pop quiz overlay asks the user to 'Show me listings in the Pending fulfillment category' and has a 'Start' button.

After completing each certification course, you can obtain a Certification URL to print or showcase your new skills online, such as on your LinkedIn profile. Have fun and good luck!

The image shows a LinkedIn profile snippet on the left with two certification entries: 'PowerUp: Platform Essentials' and 'Admin: Platform Management'. On the right, two certification certificates are displayed: 'Business Listings Reputation.com Certification' and 'Platform Admin Your Name Here'. Both certificates list the course content and include a gold seal of completion.
